

Instructions to access CRISNET *Anywhere!* Wireless

CRISNet *Anywhere!* Wireless was designed to connect to your MLS and configure MLS data for small screen viewing.

To begin, start your handheld browser and go to <http://prewireless.com> This will connect you to CRISNet *Anywhere!* Wireless service. Do not go to the Tempo website.

The first time you connect, you will be prompted to configure your device by entering the data as displayed in the License Configuration screen below:

Pocket Real Estate Wireless License Configuration	
License ID:	175533
Password:	134240
Agent ID:	F or B and your Member #
MLS Password:	Your CRISNet (Wyldfyre7) Password

Next click Submit to login to CRISNet *Anywhere!* Wireless. The following screen will display:

You are logged in to the Pocket Real Estate
Wireless service. Press OK to continue.

OK

Click OK to view the CRISNet *Anywhere!* Wireless Main Menu. To begin searching enter the same city/area abbreviations as in Tempo.

You should only have to configure your device once. However, if you change handheld devices, reset your device, or delete cookies on your device, you will be prompted to reconfigure.

If you require further help, please call the Helpline at 818.947-2202.
